SEARCH FOR MEDIA GRANTS

1. The Media Is Not Loyal To The Public

Truth is essential in society, but the situation in Canada is worse than people imagine. In Canada (and elsewhere), the mainstream media, periodicals, and fact-checkers are subsidized, though they deny it. Post Media controls most outlets in Canada, and many “independents” have ties to Koch/Atlas. Real investigative journalism is needed, and some pointers are provided.

***Salam Afghanistan Media Organization	Afghanistan	2020	$62,000

Serious question: why are we funding these programs abroad? It’s bad enough the brainwashing that goes on domestically, but this maybe even worse.

4. Canadian Media Long Term Dependents

Various media in Canada, such as television, radio, newspapers have long been dependent on the Government, (or rather, taxpayers), to remain viable. The consequence is that when

Ottawa or the Provinces have agendas to implement, few will be in any position to investigate them too hard. The result is almost universal media approval.
